Section 2: EX-99.1 (EXHIBIT 99.1)
CAUTIONARY STATEMENTS FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE SECURITIES LITIGATION REFORM ACT

Any statements contained in this investor presentation regarding the outlook for the Company’s businesses and their respective markets, such as projections of future performance, guidance, statements of the Company’s plans and objectives, forecasts of market trends and other matters, are forward-looking statements based on the Company’s assumptions and beliefs. Such statements may be identified by such words or phrases as “will likely result,” “are expected to,” “will continue,” “outlook,” “will benefit,” “is anticipated,” “estimate,” “project,” “management believes” or similar expressions. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those discussed in such statements and no assurance can be given that the results in any forward-looking statement will be achieved. For these statements, TCF claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Any forward-looking statement speaks only as of the date on which it is made, and we disclaim any obligation to subsequently revise any forward-looking statement to reflect events or circumstances after such date or to reflect the occurrence of anticipated or unanticipated events.

Certain factors could cause the Company’s future results to differ materially from those expressed or implied in any forward-looking statements contained herein. These factors include the factors discussed in Part I, Item 1A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, the factors discussed below and any other cautionary statements, written or oral, which may be made or referred to in connection with any such forward-looking statements. Since it is not possible to foresee all such factors, these factors should not be considered as complete or exhaustive.

Adverse Economic or Business Conditions; Competitive Conditions; Credit and Other Risks. Deterioration in general economic and banking industry conditions, including those arising from government shutdowns, defaults, anticipated defaults or rating agency downgrades of sovereign debt (including debt of the U.S.), or increases in unemployment; adverse economic, business and competitive developments such as shrinking interest margins, reduced demand for financial services and loan and lease products, deposit outflows, increased deposit costs due to competition for deposit growth and evolving payment system developments; deposit account attrition or an inability to increase the number of deposit accounts; customers completing financial transactions without using a bank; adverse changes in credit quality and other risks posed by TCF’s loan, lease, investment, securities held to maturity and securities available for sale portfolios, including declines in commercial or residential real estate values, changes in the allowance for loan and lease losses dictated by new market conditions or regulatory requirements, or the inability of home equity line borrowers to make increased payments caused by increased interest rates or amortization of principal; deviations from estimates of prepayment rates and fluctuations in interest rates that result in decreases in the value of assets such as interest-only strips that arise in connection with TCF’s loan rates activity; interest rate risks resulting from fluctuations in prevailing interest rates or other factors that result in a mismatch between yields earned on TCF’s interest-earning assets and the rates paid on its deposits and borrowings; foreign currency exchange risks; counterparty risk, including the risk of defaults by our counterparties or diminished availability of counterparties who satisfy our credit quality requirements; decreases in demand for the types of equipment that TCF leases or finances; the effect of any negative publicity.

Legislative and Regulatory Requirements. New consumer protection and supervisory requirements and regulations, including those resulting from action by the Consumer Financial Protection Bureau and changes in the scope of Federal preemption of state laws that could be applied to national banks and their subsidiaries; the imposition of requirements that adversely impact TCF’s deposit, lending, loan collection and other business activities such as mortgage foreclosures moratorium laws, further regulation of financial institution campus banking programs, use by municipalities of eminent (continued)
CAUTIONARY STATEMENTS FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE SECURITIES LITIGATION REFORM ACT (cont.)

domain on property securing troubled residential mortgage loans, or imposition of underwriting or other limitations that impact the ability to offer certain variable-rate products; changes affecting customer account charges and fee income, including changes to interchange rates; regulatory actions or changes in customer opt-in preferences with respect to overdrafts, which may have an adverse impact on TCF’s fee revenues; changes to bankruptcy laws which would result in the loss of all or part of TCF’s security interest due to collateral value declines; deficiencies in TCF’s compliance under the Bank Secrecy Act in past or future periods, which may result in regulatory enforcement action including monetary penalties; increased medical care costs resulting from Federal health care reform; regulatory criticism and resulting enforcement actions or other adverse consequences such as increased capital requirements, higher deposit insurance assessments or monetary damages or penalties; heightened regulatory practices, requirements or expectations, including, but not limited to, requirements related to enterprise risk management, the Bank Secrecy Act and anti-money laundering compliance activity.

Earnings/Capital Risks and Constraints, Liquidity Risks. Limitations on TCF’s ability to pay dividends or to increase dividends because of financial performance deterioration, regulatory restrictions or limitations; increased deposit insurance premiums, special assessments or other costs related to adverse conditions in the banking industry; the impact on banks of regulatory reform, including additional capital, leverage, liquidity and risk management requirements or changes in the composition of qualifying regulatory capital; adverse changes in securities markets directly or indirectly affecting TCF’s ability to sell assets or to fund its operations; diminished unsecured borrowing capacity resulting from TCF credit rating downgrades or unfavorable conditions in the credit markets that restrict or limit various funding sources; costs associated with new regulatory requirements or interpretive guidance relating to liquidity; uncertainties relating to future retail deposit account changes, including limitations on TCF’s ability to predict customer behavior and the impact on TCF’s fee revenues.

Branching Risk; Growth Risks. Adverse developments affecting TCF’s supermarket banking relationships or any of the supermarket chains in which TCF maintains supermarket branches; costs related to closing underperforming branches; slower than anticipated growth in existing or acquired businesses; inability to successfully execute on TCF’s growth strategy through acquisitions or cross-selling opportunities; failure to expand or diversify TCF’s balance sheet through new or expanded programs or opportunities; failure to successfully attract and retain new customers, including the failure to attract and retain manufacturers and distributors to expand the inventory finance business; failure to execute new product introductions and loans; risks related to new product introductions and addition of distribution channels or entry into new markets for existing products.

Technological and Operational Matters. Technological or operational difficulties, loss or theft of information, cyber-attacks and other security breaches, counterparty failures and the possibility that deposit account losses (fraudulent checks, etc.) may increase; failure to keep pace with technological change, including the failure to develop and maintain technology necessary to satisfy customer demands. Ability to attract and retain employees given competitive conditions and the impact of consolidating facilities.

Litigation Risks. Results of litigation or government enforcement actions, including class action litigation or enforcement actions concerning TCF’s lending or deposit activities, including account servicing processes or fees or charges, or employment practices; and possible increases in indemnification obligations for certain litigation against Visa U.S.A. and potential reductions in card revenues resulting from such litigation or other litigation against Visa.

Accounting, Audit, Tax and Insurance Matters. Changes in accounting standards or interpretations of existing standards; federal or state monetary, fiscal or tax policies, including adoption of state legislation that would increase state taxes; ineffective internal controls; adverse federal, state or foreign tax assessments or findings in tax audits; lack of or inadequate insurance coverage for claims against TCF; potential for claims and legal action related to TCF’s fiduciary responsibilities.

- Utilize technology to drive automation across the platforms

PHASE 2
- Review for physical distribution and operational changes in the branches
- Setting targeted efficiency gains
- Leverage the asset growth – expenses up 2%, asset growth 5-10%

PHASE 3
- Leverage Control Functions as overall business grows
Technology Initiatives

- Addition of Tom Butterfield as Chief Information Officer
- Improve IT collaboration across platforms to enhance the businesses
- Full hardware and software assessment across the platforms
- Online and digital technology development
- Enhancing our architecture discipline
- Data center optimization
The TCF Funding Strategy

- A low-cost core deposit base that is granular (over 90% FDIC insured)
- Focused on customer retention and account quality
- New products and service enhancements
New Products Expanding Wallet Share

• Online and mobile enhancements – investing in technology that customers demand

• More lending products available to retail banking distribution networks
  • Mortgages
  • Credit Cards

• Products targeting millennials that are also available to customers preferring non-traditional banking products – cross sell into other products
Well Positioned for Rising Rates  At June 30, 2015

EARNING ASSETS

- Growth of short-term and variable rate loans positions TCF to benefit in a rising rate environment
- 81% of assets are variable/adjustable rate or short/medium duration fixed rate
  - Estimated weighted average life¹:
    - Auto Finance portfolio: 23 months vs new originations of 27 months
    - Leasing and Equipment Finance portfolio: 19 months vs new originations of 25 months
- 64% of deposits are low or no interest cost with an average balance of $10.1 billion and an average cost of two bps for the second quarter of 2015

DEPOSITS

¹ As of June 30, 2015; estimated weighted average life represents how many months it is expected to take to pay half of the outstanding principal
Recap

1. Diversification
2. Profitable Growth
3. Operating Leverage
4. Core Funding

Execution under a strong enterprise risk management and credit culture
Enhanced Enterprise Risk Management

- Redesigned a comprehensive framework to identify, manage and monitor all risks

- Structured around classic three lines of defense principle
  1. Business
  2. Risk
  3. Audit

- Objective: seamless second line of defense
Enhancing TCF’s Risk Infrastructure

- Program initiated in 2014 to enhance the risk infrastructure – Risk Transformation Initiative (RTI)

- RTI Goals:
  - Design a scalable, dynamic program staffed with experienced subject matter experts dedicated to specific risk areas
  - Build a team that works in concert to achieve defined goals in order to effectively deliver a holistic view of risk across the organization

- RTI was structured into a series of work-streams grouped in eight areas:
  1. Experience/Organizational Design
  2. Budget
  3. Analytics
  4. Talent Management
  5. Policy
  6. Reporting
  7. Risk Rating Integrity
  8. Governance
New Organizational Design

- New centralized model
- Improved risk reporting lines to codify independence
- 18 specialized risk teams address specific risks
- Experience:
  - Members of leadership team average 24 years
  - Key industry certifications
  - New leadership team infused with outside talent
  - Mix of large bank and regional bank experience
Specialized Teams Address Specific Risks
Investments for the Long Term

- Material investments made in people, processes and architecture
- Provides sustainability of controls
- Enables resiliency to respond to ever evolving risk and regulatory landscape
- Aligns TCF to industry best practice
Talent Management

• Investing in TCF’s most valuable resource: people
  • Annual talent assessment and peer reviews
  • Required industry certifications
  • Specific requirements for ongoing outside professional training

• Common performance objectives:
  • Maintain highest level of integrity and professionalism with all applicable constituencies, TCF management and regulators
  • Demonstrate independence in professional points of view as a TCF second line of defense member
  • Communicate to the CRO new and emerging risks without delay
  • Effectively lead and manage high performing teams by being committed to talent management disciplines
Analytics

• Consolidated analytics resources into a center of excellence

• Principle:
  • Better risk measurement allows for stronger risk management

• Results:
  • New models, deeper data, enhanced data controls, and new governance over model risk
  • Formalized and structured stress testing program
  • Stronger scenario analyses
  • More crisp views of forward portfolio performance
  • Smarter decision making about risk / reward
Policy

- Established enterprise governance over policy administration

- Designed consistency in policy design and review

- Conducted comprehensive assessment of policy compliance with regulation

- Adopted new technology to facilitate more efficient policy management
Reporting

• Redesigned reporting of risk profile to ensure improved visibility of enterprise risks to TCF Board and Management

• Leveraged new risk analytics to add higher value content into risk reporting:
  • New metrics on leading indicators of risks
  • Stress testing
  • Capital Markets Intelligence

• Redesigned TCF’s Risk Appetite statement

• Implemented new framework for concentration management to effectively balance risk / reward decisions with new Risk Appetite
Risk Rating Integrity

- Conducted enterprise review of fundamental measures of credit risk across all TCF Lines of Business

- Benchmarked to industry best practice

- Leveraged best practice findings to enhance:
  - Risk quantification
  - Risk reporting
  - Capital adequacy assessment
  - Stress testing
Governance

- Conducted enterprise review of TCF governance structure

- Clarified roles and responsibilities of key committees

- Optimized efficiency of committee design to provide:
  - Timely design making
  - Clear accountability
  - Improved communication to Board and regulators
  - More effective utilization of key talent
Balancing Risk Reward Equation

- TCF Risk Program meets and exceeds industry standards for design, talent, measurement, management and reporting of risks

- New design enables management to smartly allocate capital to proactively embrace risk taking

- New design ensures risks are prudently managed in a fashion that balances risk reward, all in concert with TCF’s Risk Appetite, mission, vision and values
On the Horizon – Emerging Risks

• Balance sheet risks:
  • Pricing: thinner – challenges risk reward
  • Issuance / market liquidity: volumes in certain asset classes exceed historical peaks
  • Structure: competition impacting terms reflects longer point in credit cycle

• Non-balance sheet risks:
  • Cyber threats – top of mind
  • Non-bank entrants elicit heightened standards for regulated entities
  • Regulatory focus on:
    • Stress testing, governance, consumer compliance, BSA / AML
A Disciplined Credit Culture

- Disciplined credit culture and organizational alignment
- Experienced credit leadership with tenured Credit Administration staff (members of leadership average 28 years of experience)
- Defined origination strategies by line of business with demonstrated execution
  - Front-end guidance
  - Dedicated credit teams
- Leverage underwriting, decisioning, portfolio management process, protocols and workflows
- Larger exposures require committee approval system
Credit Quality Through National Lending

- Asset growth within the footprint requires originations up and down the entire credit box

- National lending platforms allow for asset growth through originations concentrated at the top of the credit box

- Credit quality of national lending businesses continues to exceed expectations, even through the recession

• Focus on expense management
# Industry Overview – High Barrier to Entry

## FEW LARGE COMPETITORS

![Logos](image)

## STABLE ENVIRONMENT

- Finite number of manufacturers
- Typically exclusive program-driven industries
  - Lawn & Garden, Powersports, and Specialty Vehicles
- Dealer driven industries
  - Electronics & Appliances, Marine Vehicles, and Recreational Vehicles

## MARKET OPPORTUNITIES

- Uncertainty over landing site of GE Commercial Distribution Finance (CDF) has led to Manufacturer discussions with TCFIF
  - TCFIF announced multi-year agreement with Ariens in June 2015

## TCF INVENTORY FINANCE FOCUS

- Large program acquisitions - manufacturers can be resistant to switching lenders
- Organic growth tied to economy
- Making it easier for customers to do business with us

Market Opportunities Present

- Signed deal with Ariens within 30 days of GE Capital announcement
- TCF Inventory Finance has seen an increase in inquiries from GE customers
  - Open to all manufacturers and able to commit to a program by the end of 2016
  - Several manufacturers in exclusive programs have notice periods in 2016 with a 6 to 12 month notice of termination required
  - Manufacturers are weighing options
Future Focus on Service, Leverage and Technology

GROWTH STRATEGY
- Re-engineered sales processes
  - Sales force focused on dealer driven industries
  - Strategy team focused on exclusive programs
- More effective customer experience through new inventory platform
- Engage major manufacturers prior to their contractual end dates

BUSINESS OUTLOOK
- High focus on improving operating leverage through new inventory platform
- High cost/high touch regulatory environment

THREE YEAR VIEW
- Appetite for additional programs
- Focus on the customer experience
- Lean and data driven operating environment
Summary

- Unique high yielding, high return business with a high barrier to entry and strong credit performance
- Experienced management team
- Emphasis on technology to lead enhancements in service and operating leverage
- Low risk based on highly effective risk structures

Evolution of Industry Distribution Channels

AN EVOLUTION OF DISTRIBUTION

- 2015 ABA Survey – Preferred Banking Methods
  - Internet 55%
  - ATM 13%
  - Mobile 12%
  - Mail 7%
  - Telephone 5%
  - Don’t Know 12%

- Online banking continues to be the preferred banking method
- Branches remain second most popular way to bank
- Mobile banking popularity increasing

INCREASING USAGE OF ALTERNATIVE CHANNELS

- Mobile app usage up significantly across all demographics
- Most consumers are now omnichannel using three to four alternative channels
  - ATM
  - Online bill pay
  - Mobile deposits
  - Branch

INDUSTRY CHALLENGES

- Low interest rate environment impairs the value of deposits
- Basel III / LCR has increased the competition for consumer deposits, driving rates higher
- Economy post-recession recovery is modest in terms of economic growth and employment / wages
- CFPB oversight expected to continue to impact revenue and costs of retail banking

TCF RETAIL BANKING FOCUS

- Gathering low cost core deposits
- Reduction of customer attrition through improved service levels
- Increase wallet share of households already on the books

- Manage physical distribution to increase profitability, access funding, and deliver on meeting the needs of customers today and tomorrow

STRATEGIES

- Increase market presence by positioning physical distribution in high volume, high visibility areas with focus on an expanded ATM network
- Effectively roll-out of new branch designs that will:
  - Reflect the way consumers use branches today
  - Be designed around capturing new relationships, distributing more products, and providing a higher level of service
  - Migrate transactions away from teller line to alternative channels
- Improve the cost and effectiveness of the branch
- Consolidate underperforming locations and re-invest in alternative distribution channels

An Evolving Strategy with a Continued Focus on Retail Deposit Funding

- Consistent recent success with 19 consecutive quarters of deposit growth

- Strategy shift from a focus on gross checking accounts to quality relationships

- Leverage physical distribution and digital assets

- Improve cross-sell and penetration of additional products

- Remain focused on meeting customer needs in transacting, saving, and borrowing
Customer Need Continuum

CUSTOMER NEEDS

Every customer has 5 basic financial needs. Priority and timing vary by segment and life stage.

TCF focuses on meeting 3 of these needs and is expanding product line distribution to do so.

PROTECT

Products in development
Robust Product and Service Opportunities

• Instant issue of cards in the branch
• Website and mobile enhancements
• Enhanced overdraft protection (ODP) products
• Mortgage lending in branch
• Suite of services targeting millennials that are also available to customers preferring non-traditional banking products
• Credit card
• Investing in technology that customers demand
• Enhancing both the digital and in-person customer experience

Each initiative largely leverages the existing franchise with modest investments – reducing net burden while improving customer experience
Summary

• In a competitive market, organic growth has a higher cost

• Expand segments in markets where premiums to acquire may be lower, effectively increasing funding capacity while managing interest costs

• M&A opportunities could augment the equation

• Alignment on quality relationships and superior service are beginning to be evidenced in the market

• Expect less elasticity than industry as rates rise based on our portfolios and customer base

• Focusing on digital strategy has dual benefit of improving efficiency and appeal to customers
