In contrast to GAAP basis measures, tangible realized common equity excludes the effect of goodwill, customer-based intangibles and accumulated other comprehensive income (loss). Management reviews tangible realized common equity as an ongoing measure and has included this information because of current interest in tangible realized common equity in the industry. The methodology for
Cautionary Statement

This presentation and other reports issued by the Company, including reports filed with the SEC, may contain “forward-looking” statements that deal with future results, plans or performance. In addition, TCF’s management may make such statements orally to the media, or to securities analysts, investors or others. Forward-looking statements deal with matters that do not relate strictly to historical facts. TCF’s future results may differ materially from historical performance and forward-looking statements about TCF’s expected financial results or other plans and are subject to a number of risks and uncertainties. These include, but are not limited to, continued or deepening deterioration in general economic and banking industry conditions; continued increases in unemployment in TCF’s primary banking markets; limitations on TCF’s ability to pay dividends or to increase dividends in the future because of financial performance deterioration, regulatory restrictions or limitations; increased deposit insurance premiums, special assessments or other costs related to deteriorating conditions in the banking industry and the economic impact on banks of the Emergency Economic Stabilization Act, as amended (“EESA”) or other related legislative and regulatory developments; the impact of the Obama Administration’s financial regulatory reform proposals including possible additional capital, consumer protection and supervisory requirements which could include the creation of a new consumer protection agency and limits on Federal preemption for state laws that could be applied to national banks; the imposition of requirements with an adverse financial impact relating to TCF’s lending, loan collection and other business activities as a result of the EESA, or other legislative or regulatory developments such as mortgage foreclosure moratorium laws; possible regulatory or legislative changes, including restrictions on deposit fees and reduction of interchange revenue from debit card transactions and adverse economic, business and competitive developments such as shrinking interest margins, deposit outflows, an inability to increase the number of deposit accounts and the possibility that deposit account losses (fraudulent checks, etc.) may increase; impact of legislative, regulatory or other changes affecting customer account charges and fee income; legislative changes to bankruptcy laws which would result in the loss of all or part of TCF’s security interest due to collateral value declines (so-called “cramdown” provisions); reduced demand for financial services and loan and lease products; adverse developments affecting TCF’s supermarket banking relationships or any of the supermarket chains in which TCF maintains supermarket branches; changes in accounting standards or interpretations of existing standards; monetary, fiscal or tax policies of the federal or state governments, including adoption of state legislation that would increase state taxes; adverse state or Federal tax assessments or findings in tax audits; adverse regulatory examinations and resulting enforcement actions, including those provided for under the Bank Secrecy Act, changes in credit and other risks posed by TCF’s loan, lease, investment, and securities available for sale portfolios, including continuing declines in commercial or residential real estate values or changes in allowance for loan and lease losses methodology dictated by new market conditions or regulatory requirements; lack of or inadequate insurance coverage for claims against TCF; technological, computer related or operational difficulties or loss or theft of information; adverse changes in securities markets directly or indirectly affecting TCF’s ability to sell assets or to fund its operations; results of litigation, including class action litigation concerning TCF’s lending or deposit activities or fees or charges, or employment practices, and possible increases in indemnification obligations for certain litigation against Visa U.S.A. (“covered litigation”) and potential reductions in card revenues resulting from covered litigation or other litigation against Visa; heightened regulatory practices, requirements or expectations, including, but not limited to, requirements related to the Bank Secrecy Act and anti-money laundering compliance activity; or other significant uncertainties. Investors should consult TCF’s Annual Report on Form 10-K, and Forms 10-Q and 8-K for additional important information about the Company.
