## 2.) What Makes TCF Different

At September 30, 2010

- **Convenience**  
TCF banks a large and diverse customer base by offering a host of convenient banking services:
  - Traditional, supermarket and campus branches open seven days a week
  - Free debit cards, free coin counting and 983 free ATMs
  - TCF Free Online banking
- **Credit Quality**
  - TCF is primarily a secured portfolio lender, emphasizing credit quality over asset growth
- **Core deposit funding for national diverse lending platform**
  - Grew core deposits by \$442.8 million year-over-year; decreased total certificate of deposit balances by \$607.3 million year-over-year
  - Increased nationally-oriented specialty finance businesses by \$666.7 million year-over-year

## 3.) What Makes TCF Different (continued)

- No deficient foreclosure procedures
- No teaser rate or subprime lending programs
- No option ARM loans
- No mortgage repurchase risk
- No low-doc/no-doc loans
- No Freddie Mac or Fannie Mae preferred stock
- No non-agency mortgage-backed securities
- No off-balance-sheet funding or securitizations
- No bank-owned life insurance
- No mortgage servicing rights

## 4.) Dodd-Frank Act Highlights

- Directs Federal Reserve to issue rules limiting debit card interchange fees (Durbin Amendment)
- Phases out trust preferred securities as a component of tier 1 capital beginning in 2013 (Collins Amendment)
- Creates a new consumer protection bureau that will have rulemaking authority for a wide range of consumer protection laws applying to all banks and other non-bank financial services companies
- Changes standards of Federal preemption of state laws related to federally chartered institutions and their subsidiaries
- Mortgage reform including a customer's ability to repay
- Requires publicly-traded bank holding companies with \$10 billion or more in total assets to establish a Board of Directors risk committee responsible for enterprise-wide risk management practices

9.) **Deposit Strategies**

- Earn a significant portion of our profits from the deposit side of the bank
- Emphasize great retail branch locations in densely populated suburban/metro markets
- Accumulate a large number of low-cost core accounts by offering convenient, competitive and diversified products and services
- Low-cost checking accounts are the anchor account used to build additional customer relationships
- Convenience oriented - open longer hours, 7 days a week

10.) **Significant Liquidity & Borrowing Capacity**

At September 30, 2010

- TCF has unused, secured borrowing capacity from the following sources:
  - Federal Home Loan Bank of Des Moines - \$2 billion
  - Federal Reserve Discount Window - \$529 million
- Balance of \$109.6 million at the Federal Reserve (asset liquidity)

\* Twelve-month growth rate

<sup>1</sup> Year-to-date

13.) **Durbin Amendment Lawsuit**

- On October 12, 2010, TCF filed a lawsuit challenging the constitutionality of the Durbin Amendment of the Dodd-Frank Act
- Amendment orders Federal Reserve to enact regulations that strictly limit the amount of interchange fees banks can charge retailers on debit card transactions
  - TCF's current average interchange rate is 1.38%
  - Federal Reserve to set rate based only on incremental processing fees and specifically excludes other costs
- Challenge of constitutionality:
  - Due Process - price cap prevents TCF from earning a fair rate of return on its invested capital
  - Equal Protection - only applies to banks with \$10 billion or more in total assets; 99% of all U.S. banks and 48% of U.S. branches are exempt
  - Takings Clause - taking of TCF property without just compensation

<sup>1</sup> The S&P/Case-Shiller Home Price Indices track the price path of typical single-family homes located in various metropolitan areas. Each index combines matched price pairs for thousands of individual houses from the available universe of arms-length sales data. The indices have a base value of 100 in January 2000; thus, for example, a current index value of 150 translates to a 50% appreciation rate since January 2000 for a typical home located in the given market. 34.) **Well-Positioned for Future Success**

- Experienced and tenured management team
- “New” industry approach of portfolio lending funded with retail deposits has been a part of TCF’s business philosophy for many years
- New management structure (Wholesale, Retail and Treasury & Support Services) improves execution, reduces overhead and increases our ability to quickly react to changes and new opportunities
- Strong wholesale banking management team will enable profitable growth

- Core profitability is still very high when credit costs normalize

### 35.) **Cautionary Statement**

*This presentation and other reports issued by the Company, including reports filed with the SEC, contain “forward-looking” statements that deal with future results, plans or performance. In addition, TCF’s management may make such statements orally to the media, or to securities analysts, investors or others. Forward-looking statements deal with matters that do not relate strictly to historical facts. TCF’s future results may differ materially from historical performance and forward-looking statements about TCF’s expected financial results or other plans and are subject to a number of risks and uncertainties. These include, but are not limited to the following:*

*\* Adverse Economic or Business Conditions, Credit and Other Risks. Continued or deepening deterioration in general economic and banking industry conditions, or continued increases in unemployment in TCF’s primary banking markets; adverse economic, business and competitive developments such as shrinking interest margins, deposit outflows, deposit account attrition, or an inability to increase the number of deposit accounts; adverse changes in credit and other risks posed by TCF’s loan, lease, investment, and securities available for sale portfolios, including continuing declines in commercial or residential real estate values or changes in the allowance for loan and lease losses dictated by new market conditions or regulatory requirements; interest rate risks resulting from fluctuations in prevailing interest rates or other factors that result in a mismatch between yields earned on TCF’s interest-earning assets and the rates paid on its deposits and borrowings; foreign currency exchange risks.*

*\* Earnings/Capital Constraints, Liquidity Risks. Limitations on TCF’s ability to pay dividends or to increase dividends in the future because of financial performance deterioration, regulatory restrictions or limitations; increased deposit insurance premiums, special assessments or other costs related to deteriorating conditions in the banking industry, the economic impact on banks of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Act”) and Emergency Economic Stabilization Act of 2008, as amended (“EESA”), and other regulatory reform legislation; the impact of financial regulatory reform, including the phase out of trust preferred securities in Tier 1 capital called for by the Act, or additional capital, leverage, liquidity and risk management requirements or changes in the composition of qualifying regulatory capital; adverse changes in securities markets directly or indirectly affecting TCF’s ability to sell assets or to fund its operations; diminished unsecured borrowing capacity resulting from TCF credit rating downgrades and unfavorable conditions in the credit markets that restrict or limit various funding sources; costs associated with new regulatory requirements or interpretive guidance relating to liquidity.*

*\* Legislative and Regulatory Requirements. New consumer protection and supervisory requirements, including the Act’s creation of a new consumer protection bureau and limits on Federal preemption for state laws that could be applied to national banks; the imposition of requirements with an adverse impact relating to TCF’s lending, loan collection and other business activities as a result of the EESA and the Act, or other legislative or regulatory developments such as mortgage foreclosure moratorium laws or imposition of underwriting or other limitations that impact the ability to use certain variable-rate products; reduction of interchange revenue from debit card transactions resulting from the so-called Durbin Amendment (the “Amendment”) to the Act, which limits debit card interchange fees to amounts that will only allow issuers to recover incremental costs of authorization, clearance and settlement of (continued)*

### 36.) **Cautionary Statement (continued)**

*debit card transactions, plus possibly some costs relating to fraud prevention; impact of legislative, regulatory or other changes affecting customer account charges and fee income; changes to bankruptcy laws which would result in the loss of all or part of TCF’s security interest due to collateral value declines (so-called “cramdown” provisions); any material failure of TCF to comply with the terms of its Consent Order with the Office of the Comptroller of the Currency relating to TCF’s Bank Secrecy Act compliance, which may result in regulatory enforcement action including monetary penalties; increased health care costs resulting from recently enacted Federal health care reform legislation; adverse regulatory examinations and resulting enforcement actions or other adverse consequences such as incremental capital requirements or higher deposit insurance assessments; heightened regulatory practices, requirements or expectations, including, but not limited to, requirements related to the Bank Secrecy Act and anti-money laundering compliance activity.*

*\* Risks Relating to New Product Introduction. TCF has introduced a new anchor retail deposit account product that replaces TCF Totally Free Checking, and that calls for a monthly maintenance fee on accounts not meeting certain specific requirements. TCF has also implemented new regulatory requirements that prohibit financial institutions from charging NSF fees on point-of-sale and ATM transactions unless customers opt-in. Customer acceptance of the new product changes and regulatory requirements cannot be predicted with certainty, and these changes may have an adverse impact on TCF’s ability to generate and retain accounts and on its fee revenue.*

*\* Litigation Risks. Results of litigation, including class action litigation concerning TCF’s lending or deposit activities including account servicing processes or fees or charges, or employment practices, and possible increases in indemnification obligations for certain litigation against Visa U.S.A. (“covered litigation”) and potential reductions in card revenues resulting from covered litigation or other litigation against Visa.*

*\* Competitive Conditions; Supermarket Branching Risk. Reduced demand for financial services and loan and lease products; adverse developments affecting TCF’s supermarket banking relationships or any of the supermarket chains in which TCF maintains supermarket branches.*

*\* Accounting, Audit, Tax and Insurance Matters. Changes in accounting standards or interpretations of existing standards; monetary, fiscal or tax policies of the federal or state governments, including adoption of state legislation that would increase state taxes; adverse state or Federal tax assessments or findings in tax audits; lack of or inadequate insurance coverage for claims against TCF.*

*\* Technological and Operational Matters. Technological, computer-related or operational difficulties or loss or theft of information and the possibility that deposit account losses (fraudulent checks, etc.) may increase.*

Investors should consult TCF's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K for additional important information about the Company.
